FOR CLINICS, SPAS, AND CLEANING OPERATIONS

Fast-moving supplies, always in reach.

Trakr is inventory management software for clinics, spas and cleaning crews. Count supply rooms on a phone, set a minimum for gloves, wipes and other consumables, and see what to reorder.

low-stock digest

A TYPICAL SITUATION

A clinic keeps supplies in two supply rooms and several treatment rooms. Gloves run out in one room while another has plenty, and nobody notices until someone asks.

WITH TRAKR

In Trakr each room is a storage area. A minimum on each product shows what is low, an email digest tells administrators when products drop below their level, and transfers move stock between locations.

SUPPLY ROOM · EXAMPLE		ON HAND	PAR
Nitrile gloves (M)	Supply room A · Shelf 2	**2 boxes**	Min 4
Disinfectant wipes	Supply room A · Shelf 1	**14 tubs**	Min 8
Massage oil 1L	Treatment 3 · Cabinet	**3**	Min 3
Paper towels	Supply room B · Shelf 4	**22 rolls**	Min 12
Hand sanitizer 500ml	Reception	**5**	Min 6

2 items below their minimum. They appear on the reorder report.

WHAT TRAKR DOES HERE

- **Minimums per product**
  Set the level at which each supply counts as low, and see what is below it on the reorder report.
- **Low-stock emails**
  Administrators can get a daily, weekly or monthly summary of the products below their level.
- **Resume anytime**
  Interrupted by a client? Close the app and pick the count up where you left off.
- **Supplies by room**
  Set up each supply room, cabinet and treatment room as a storage area.

THE FIVE PILLARS, IN MEDICAL & CLEANING TERMS

Manage	Count supply rooms, pick what leaves and record deliveries on a phone. A count can be paused and resumed.
Visibility	See stock per room, the movement history of each product, and which supplies are below their minimum.
Organize	Set up each clinic, spa or site as a location, with supply rooms, shelves and cabinets as storage areas. Assign staff to locations.
Connect	Scan supplies with the phone camera and print shelf labels for rooms and cabinets.
Replenish	Set minimums, read the reorder report, and get a low-stock email on the schedule you choose.
Hardware	Trakr works on any phone out of the box and plugs into Linea Pro scanners, RFID, and label printers when you need them.
